<b>Family Code</b> You can determine the total tuition price for your family by finding the row that has the number of children in your family for the school(s) they will be attending. For instance, you might have one child in elementary school, one in middle school, and one in high school. Your family code would be Q. Your tuition would be \$24,110 minus the family reduction for three students of \$1,900 for a total of \$22,210.	<b>Payment Schedule</b> The tuition must be paid using one of the following payment plans.
	<b>Annual Plan*:</b> Pay the balance of the tuition by August 4.
	<b>Three Payment Plan*:</b> Pay the balance of tuition in three installments, August 4, November 5, and <u>February 5</u> .
	<b>May-February Monthly Plan*:</b> Pay tuition in ten installments beginning May 5 and <u>ending February 5</u> .
	<b>August-May Plan:</b> Pay tuition in ten installments beginning August 4 and ending May 5.**

**Notes** - The non-refundable deposit of \$200 per student is due within two weeks of acceptance. This is applied to Registration and Book Deposit once school begins, but it is not refundable if a student does not attend school. - Transportation charges, Book and Breakage Deposits, Activity Fees and Team Fees are in addition to prices on this sheet.

\* Any payment plan that concludes by February 5 has been calculated with a \$200 discount. **Important:** We will charge the \$200 discount back on any account that does not have the tuition for the year paid in full by February 5.

We can prorate payments for fewer months as long as February is the last month, and any family who pays off the tuition by February 5 will earn the \$200 discount even if they started on the August to May Plan.

\*\* We do not accept payment plans that extend beyond May.
